2nd World Congress on Water, Agriculture, and Climate

23-26 November, 2023, Allahabad and at online platform

About the Congress

The World Congress on Water, Agriculture, and Climate is a prestigious international event that brings together experts, researchers, policymakers, and practitioners from across the globe to address the critical challenges at the nexus of water resources, agriculture, and climate change. With the theme "Sustaining Our Future Through Integrated Solutions," this congress serves as a platform for collaborative discussions, knowledge sharing, and the development of innovative approaches for sustainable development.
